Website	http://www.college-max-jacob-quimper.ac-rennes.fr/
Size of organization [nr of employees]: small (≤ 50), medium (51-250), large (> 250)	Medium-sized secondary school : 100 employees (50 teachers, 10 "assistants d'éducation", 20 cleaning/cooking staff, secretaries, ...)
Short Description of the school	<p>The school welcomes pupils aged from 11 to 16.</p> <p>The school is in Quimper, the "préfecture" of Finistère (around 63.000 inhabitants, it's Brittany's third largest town).</p> <p>There are around 650 pupils in the school.</p> <p>They come from a mixed background : some of them come from a more rural part of Finistère, other live in Quimper itself. Some come from more than 25 different countries.</p> <p>They are very keen on learning about different cultures and would love getting in touch with English-speaking students.</p> <p>The school is organised in 4 years (6ème, 5ème, 4ème and 3ème), each divided into 6 classes, welcoming between 22 and 28 kids.</p> <p>4 languages are taught in Max Jacob : English of course, German and Spanish. We also provide tuition in French as a foreign language.</p> <p>We also teach some special needs pupils : some of them follow a curriculum called "Segpa", an adapted kind of teaching, in groups of 16 maximum, where they also get a first hint of professional training. Some</p>

	<p>others are taught through "ULIS" : they are included in other classes for some subjects and get special tuition for others.</p> <p>The school policy is centred around four main aims :</p> <ul style="list-style-type: none"> - we aim at guiding each child towards the future, through job counselling and building one's own path, - we try and prevent absenteeism, school phobia, school dropping and every attitude that shows children may abandon school, - we aim at developing a good level in French for all kids, whatever their origins, - we try and associate families with decision making. <p>The school is part of a "RRS" (Réseau de Réussite Scolaire which could be translated by successful learning network), linking the neighbourhood's primary and secondary schools.</p> <p>For a year, we have also been working on a project about language acquisition in the framework of a LEA (Lieu d'Education Associé) with l'Institut Français de l'Education (IFé) : teachers and researchers work together, putting into relation teaching and researches about education.</p> <p>Furthermore, children can take part in many sports and clubs, from hip-hop dancing to chess playing, through song writing and climbing !</p>
